

CONAX CONTEGO

A UNIFIED AND FLEXIBLE PAY-TV SECURITY MANAGEMENT SYSTEM

Conax Contego is a proven, all-in-one modular and scalable security management system that supports any business model for any TV operation, across a multitude of consumer devices. It ensures maximum protection of valuable video content, from SD to 4K (UHD/HDR) formats.

Conax Contego enables operators to securely deliver linear channels to traditional Conax-enabled broadcast (DVB) and IPTV devices like set-top boxes (STB) and conditional access modules (CAM) as well as OTT video to multiscreen TV devices like smartphones, tablets, smart TVs, hybrid STBs and streaming media devices.

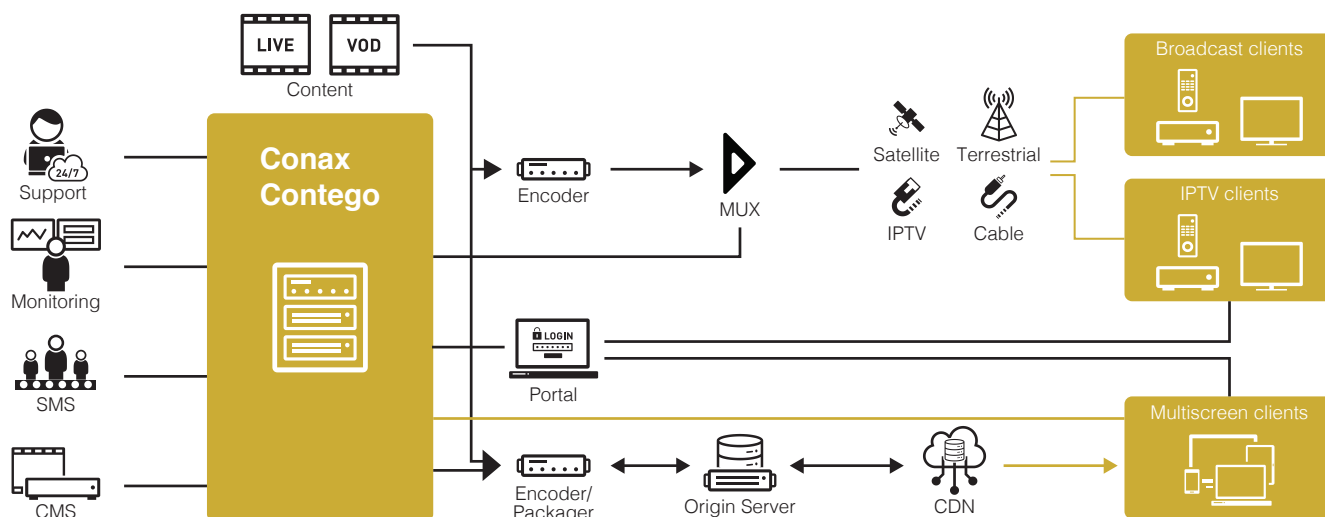

Security is at the core of any successful media business, and while it can get complex, we make it easily manageable, robust and efficient for operators and their technology partners.

DELIVER ADVANCED TV SERVICES TO ANY SCREENS

Conax Contego powers key pay-TV services and business models with a set of standardized modular features for all content distribution needs.

LINEAR	TIME-SHIFTED	VIDEO-ON-DEMAND (VOD)
Support all relevant business models for packaging linear content (broadcast and streaming) <ul style="list-style-type: none"> – Channel packages – A la carte – Event pay-per-view (PPV) – Open ended, time-limited, pre-paid and pre-loaded – Preview and teaser 	Allow viewers to enjoy the content they love at any time, in multiple ways <ul style="list-style-type: none"> – STB PVR – nPVR / cloud DVR – Start-over – Catch-up 	Provide viewers with both subscription and transaction-based services for movies, series and other on-demand content <ul style="list-style-type: none"> – Subscription VOD (SVOD) – Transactional VOD (TVOD) / Rental PPV – Ad-funded VOD (AVOD)

EASILY LAUNCH AND GROW YOUR TV OPERATIONS

Delivered as a cloud-based software-as-a-service offering, **Conax Contego** reduces the need for upfront investments, drastically reducing operator CAPEX, and enables the rapid deployment of new pay-TV features by operators and their technology partners.

FLEXIBLE

Pay-As-You-Grow, upgrade any time

Meet any operator's needs, adding features when new market requirements emerge:

- Standardized modular features addressing specific local market needs
- Automatic scaling as user/subscriber base grows
- Multiple pay-TV operation support

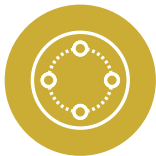

HIGH PERFORMANCE

Cloud-based availability and scalability

Scale your operations with a software-as-a-service offering on public cloud infrastructure:

- Operated and maintained by skilled NAGRA professionals, monitoring and maintaining the system 24 hours a day, 365 days a year
- Successfully run and grow your business (scalability, redundancy)

Conax Contego is also available for on-premise and private cloud deployment with several redundancy and scalability options.

UNIFIED

Simple system set-up and management

Handle all key operational tasks with one unified, intuitive and easy-to-use management system:

- Browser-based administrator interface
- Step-by-step configuration wizards, diagnostics, reporting, dashboards
- Comprehensive monitoring systems with extensive audit features

COLLABORATIVE

Pre-integration with third-party systems

Integrate with a large variety of subscriber management systems (SMS), content management systems (CMS), encoders and middlewares:

- Fast and easy deployment
- Wide variety of pre-integrated partners

OTT-READY

Built-in multi-DRM management

Secure and optimize your multiscreen OTT TV solution:

- Superior viewer usability (no plugins, any device, offline access)
- One unified and future-proof security scheme for all devices, reducing backend complexity
