

21st Anniversary Autumn Meeting of Electronic Communications Operators

Traditional Event, Not to be Missed!

Dear Sir/Madam,

on behalf of the LICA CZECH s.r.o. company and the Czech Association of Electronic Communications, it is my pleasure to invite you to the Twenty-first Anniversary Autumn Meeting of Electronic Communications Providers, which will be held on Thursday September 21st 2017 at the Sport Centre in Nymburk.

As per usual, the Autumn Meeting in Nymburk will explore hot topics and industry news. As well as the traditional focus on technological news and legislative changes, we will be discussing two pieces of breaking news:

- **DVB-T2 and its further expectations. The future of its content and the possibilities of its fulfillment ...**
- **OTT, content protection and development, including related technologies, PayTV ...**

The event will be eagerly attended by cable TV operators, program providers, TELCO network providers and ISP. As well as the opportunity to meet these specialists at their company booths, there will be a full day program of in-depth lectures, including legislative topics, new trends presentations, news of technologies and the field of programming, and panel discussions. Anyone with an interest in any of these topics is warmly welcome to join us.

A detailed program of the whole event will be available at our web page www.lica.cz in early September.

Don't miss this opportunity to attend an event with long-standing tradition, a favourite amongst regular guests and partners.
